DETAILED ACTION

Allowable Subject Matter

1. Claims 1-26 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or suggest the limitation "switching circuitry that responds to a transition in a data signal by initially connecting both of the current circuits to only one of the nodes, and by subsequently connecting one of the current circuits only to the one of the nodes to which neither of the current circuits is initially connected if there is no further transition in the data signal for a predetermined time after the transition", as recited in each of the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
